- 13th and 14th December

Please book in time as the number of participants is restricted.

Questions regarding this newsletter may be forwarded to: marketing@jdn.de.

Your **J.D. NEUHAUS** Sales Team

New EC Machinery Directive

On 29th December 2009 the new Machinery Directive 2006/42/EC comes into force and becomes binding for the EC countries. There will be no transitional period for compliance.

For JDN Products the following is valid then:

- **Complete and operational products** (e.g. minis and Profis) will be delivered with an EC Declaration of Conformity acc. to Machinery Directive.

- **Uncompleted products** (e.g. hoists without chain, trolleys) will be delivered with a Declaration of Incorporation, the former Manufacturer's Declaration.

- **Additionally** both kinds of products are provided with a Declaration of Conformity acc. to ATEX.

If products from non-EC countries are imported into the EC those products have to fulfil the new Machinery Directive, too.

JDN Service

Did you already consider the annual check of your hoists this year?

Does one of your hoists achieve the theoretical operating time so that a general overhaul acc. to FEM must be carried out?

Then please benefit from the comprehensive JDN Services for reliable and cost-effective operation of your hoists.

We offer:

- Annual check
- Inspection
- Installation of hoists and cranes, initial operation approvals
- Product training and
- Maintenance contracts.

Interested in the JDN Service? Just contact us.
