

## In this Edition:

- Tip of the Month
- CeMAT 2011
- 80 Tons Hydraulic Crane

## Tip of the Month

Do you have questions around Air Hoists? Have a look at [www.jdn.de/en/service](http://www.jdn.de/en/service).

## CeMAT 2011

**CeMAT2011**  
The world's leading fair for intralogistics

The countdown is running: CeMAT, the world's leading fair for intralogistics, is staged every three years in Hannover, Germany, and will be held from 2 to 6 May 2011. The event is expected to feature around 1,100 exhibitors. JDN takes part again, too.

The tagline for CeMAT 2011 is "Sustainability in Intralogistics".

The issue of sustainability poses a special challenge for intralogistics, given the continuing rise in energy and raw material costs and the ongoing climate debate.

An issue, that is a fundamental component of the corporate policy at J.D. Neuhaus all times. Documented by the certification according to ISO 14001 in December 2009.

## 80 Tons Hydraulic Crane

In March 2010 JDN had delivered this Hydraulic Crane with a SWL of 80 t for the Aker semisub rig "Spitsbergen". The rig will be deployed to Norwegian North Sea. The JDN Crane will be used for the Xmas tree transport.

The equipment in detail:

- Radio control
- Stainless steel switch cabinet with electro-hydraulic interface
- Hydraulic tubing
- Rack and pinion drive
- Simultaneous control of several hoists
- Signal horn, key switch
