

In this issue:

- Tip of the Month
- New JDN Homepage
- New Brochure
- JDN Toolbox „*mini*“

Tip of the Month

JDN Air Hoists *mini* are now available with a delivery time from only five days onwards. Further information around the JDN *mini*'s we have compiled in a special flyer. Simply ask for.

New JDN Homepage

From our redesigned homepage you now have a direct access to the web sites of our daughter companies. Alternatively you can choose your requested language.

Questions regarding this newsletter may be forwarded to:
marketing@jdn.de.

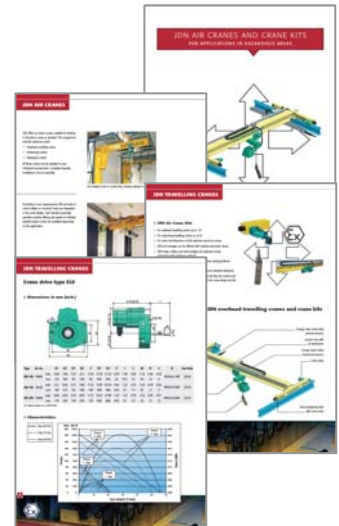

New Brochure „JDN Air Cranes and Crane Kits“

In this new 20-sided brochure we have compiled comprehensive information and technical data (metric & imperial) of JDN Cranes and Crane Kits.

The brochure gives an overview of the available types, the standard features and the main components of JDN Overhead and Underslung Cranes.

Furthermore the brochure includes:

- Technical data and dimensions of the end carriages
- Dimensions and characteristics of the crane drives
- Information regarding the energy supply by energy chain
- Additional equipment for JDN Cranes

JDN Toolbox „*mini*“

As a special extra we offer the *mini 125* and the *mini 250* in the applied JDN Toolbox. Supply hose with fittings and documentation inclusive.

The advantages of the JDN Toolbox:

- The *mini*'s are easily to handle at changing sites.
- The Toolbox is very sturdy and suitable for applications on construction sites.
- At the same time the Toolbox protects the *mini*'s against humidity and dirt.
- And all that at a price that gives pleasure.

The JDN Toolbox in detail:

Art. No.: 14800/14801

- *mini 250/mini 125*, 3 m height of lift, 2 m height of control
- supply hose with fittings, length 6 m
- operation manual, documentation and catalogue
- packed in the sturdy Toolbox
