JDN Photo Award 2007

The JDN Photo Award has ended and we thank all participants for sending their photos. And here is the winner photo:

Location: Drilling and production rig „Mittelplate“, North Sea.
Application: BOP Handling System consisting of two JDN Monorail Air Hoists EH 30.
Sender: Willem Loman, Netherlands.

The winner will receive a Lego Pneumatic Mobile Crane. All other winners will be informed in writing.

JDN Service

We have installed a new service area on our website. There you will find comprehensive services that provide to maintain the value of your JDN products for reliable and cost-effective operation.

Some examples:

- Annual Check
- Inspection
- Product Training
- General Overhaul

Additionally we have placed a calculator for „Determining the actual operating time“ of JDN Air Hoists at your disposal. Simply enter the average daily operating time and the days of operation and click

on the corresponding collective load factor as well as the existing driving mechanism group. Click on „calculate“ and the remaining theoretical use will be displayed.
